Subject: FW: [External] Responses to Comments on Paragraphs 11.a and 11.b Submissions
Attachments: 11_NCDWR_Cover Letter_05062019.pdf; 11_NCDWR_Updated PFAS Characterization Sampling Plan_05062019.pdf; 11_NCDWR_Table 3+ SOP TestAmerica_05062019.pdf; 11_NCDWR_Responses to Comments_05062019.pdf; 11_NCDWR_Table 3+ SOP Eurofins_05062019.pdf

I've taken a look at the responses to Paragraph 11a and many comments have been incorporated into their plans. Areas I see that remain to be resolved with Chemours:

- Whether use of spiked field samples should be required (EPA ORD thoughts?)
- Require sample synthesized compounds to be submitted to NCDEQ and EPA R4/ORD as they are developed.
- Require Q-TOF-MS data files and chromatograms to be submitted to NCDEQ with all results, which will be shared with EPA R4/ORD.
- Experiments on stability tests are being planned to answer those questions raised – what is the timing?
- There's an indication in T3-3 that revised SOPs from both Test America and Eurofins laboratories will be provided in the near future – what is the timing?

Other areas that you think have not been resolved? Julie is working with resolving Paragraph 11b issues if you have concerns on those areas.

Thank you,
Linda
